TRAINING COURSES

See the world differently

1 TRAINING AND FACILITATION SKILLS

(Basic or Advanced) This training course outlines and details training and facilitation principles and practice. Engaging and participatory methodologies will be utilised.

The level of the training course can be tailored to your need.

Small group discussions, FGM conference, Wicklow 2016

2 TEAM BUILDING AND GROUP DYNAMICS

With many experienced facilitators, we offer team building days that can be tailor-made to suit your group. This action-packed workshop will test your groups communication, problem solving and organisational skills through engaging and fun activities.

"When the history of the eradication of Female Genital Mutilation is written, the creation of the Big Sister International Movement to end FGM, born in the Dublin mountains under the delicate midwifery of Bobby McCormack of Development Perspectives, will be a part of that history. "

- Maggie O Kane, Multimedia Editor, The Guardian.

- 3 LEADERSHIP FOR DEVELOPMENT**
Leadership capacities and competencies of participants will be built on during this training course as a response to the scale and speed of current local and global development challenges. More than ever before, we need effective leadership.

Council session, Sligo 2015

- 4 THE POWER OF STORYTELLING:**
Your story is important but how do you tell it? Storytelling is an ancient craft, which can be utilized in many creative ways. This immersive training course will enable you to shape and share powerful stories.

- 5 REGIONAL CITIZEN'S ASSEMBLY**
A two day workshop whereby citizens are given a platform to discuss their development priorities and express their views. This is followed by related expert inputs. This workshop is a constructive and effective way that communities can express their opinions and needs, and obtain feedback and input on how to best tackle these issues in a structured setting.

OUR APPROACH

See the world differently

- Experienced, qualified facilitators.
- Eleven years experience in the development field.
- Experience working in Belgium, Finland, Germany, Cyprus, UK, China, Colombia, South Africa, Tunisia, Uganda, Zambia, Liberia and Canada.

- Innovative, inclusive and creative methods.
- Cater for diverse learning styles and intelligences.
- Use of experiential learning and problem based learning.

VALUE FOR MONEY.

Not only are we extremely good value for money, but the revenue generated from these trainings contribute towards the work of Development Perspectives.

Development Perspectives (DP) co-designed and facilitated a Leadership for Systemic Change course as part of the DEEEP 4 project. This course was very successful, which was in part due to the knowledge, skills and positive attitude, which DP has in abundance".

- Rilli Lappalainen (Secretary General of Kehys, Finnish NGDO Platform).

“I admire the commitment and in-depth engagement of Development Perspectives in every aspect of their work. It's a real pleasure to be involved in their activities, from the residential weekends on storytelling and the Hero's Journey, to my involvement in their amazing "Insight" programme. I jump at the chance to work with Development Perspectives whenever possible.”

- Carmine Rodi Falanga, Trainer and Facilitator.

Problem solving exercise, Cavan 2015

Half day or full day options are available for all courses.

Bespoke training also available.

Prices provided on request.
