Volunteer Leadership Training

Volunteer Leadership Training is a new and improved version of volunteer management training so the training would benefit both new and long-term Volunteer Managers.

As local Volunteer Development Officers one of our main aims is to promote and encourage best practice across the sector, therefore we encourage you to ensure that the person responsible for the day-to-day management of volunteers in your organisation attends these upcoming training sessions. Not only will these sessions equip managers with the necessary skills, knowledge and attributes to effectively carry out their role. The sessions will give organisations the opportunity to meet with other local volunteer managers to discuss current challenges being faced within their role.

We plan to run one Module per meeting and once attendees have completed each Module they will receive a certificate of participation. Content for the modules can be found at www.volunteermeath.ie/training/our-volunteer-training-courses/volunteer-management-training.

Those who complete all 4 Modules will then receive a certificate of completion of Volunteer Leadership Training.
