

Meath Education & Training Network Newsletter

Welcome to the June edition of the Meath Education & Training Network newsletter! As summer begins, we're delighted to bring you a wide range of exciting education, training, and upskilling opportunities available across the region. In this issue, you'll find information on the new CyberQuest Programme in Dundalk for young people aged 16–25, Skills to Advance programmes designed to help employees upskill or reskill, the DKIT Access Programme, Clinical English courses, jobs such as Temporary Clerical Officers in CSS, and a variety of evening classes to support lifelong learning. Whether you're looking to develop new skills, advance your career, or explore further education, we hope you'll find something to inspire your next step.

FINDING PEACE IN GRIEF PEER SUPPORT GROUP

*Finding comfort, connection and
hope through shared experience*

Grief can often feel like a journey we have to walk alone, but sharing with others who understand can bring comfort, connection, and hope.

Join us on Monday 13th July at 7:00pm for our new Finding Peace in Grief Peer Support Group.

This group offers a safe, welcoming space where people can, if they wish, share their experiences of grief and loss in a supportive and respectful environment. The focus is on listening, understanding, and mutual support from others who have experienced grief themselves.

The group is inspired by the sharing format used in peer-support programmes, with opportunities for reflection, discussion, and connection. This is not a therapy or counselling group; we do not give advice, but instead offer understanding, compassion, and support.

All faiths, beliefs, and backgrounds are welcome. Our focus is on spirituality, meaning, and connection rather than religion.

Tea, coffee and refreshments provided.

ANONYMOUS & CONFIDENTIAL

Your privacy is important. What is shared in the group stays in the group.

"Building the Skills That Power Progress"

Why Micro-Qualifications Are the Smartest Way to Upskill in 2026

The world of work is changing fast—really fast. That's why traditional long courses aren't always enough anymore. Enter micro-qualifications: small, powerful learning bites designed to upgrade your skills quickly and credibly.

✓ What Are Micro-Qualifications?

Think of them as focused, practical training modules that teach exactly what you need—no fluff, no wasted time. Each micro-qualification gives you a recognised badge of expertise you can use immediately.

💡 Why You Should Train Using Micro-Qualifications:

- Fast & Flexible Learning.
- Busy schedule? No problem. Learn in short bursts that fit around work and life.
- Stay Ahead in a Changing Job Market.
- Industries are evolving rapidly. Micro-qualifications help you stay relevant and competitive without committing to a long course.
- Boost Your CV Instantly.
- Every micro-qualification adds a certified skill to your profile—perfect for job applications, promotions, or career changes.
- Real Skills for Real Jobs.
- These aren't theoretical. They're designed with employers, based on what's actually needed today.
- Confidence You Can Feel.
- Each completed micro-qualification gives you a quick win—and momentum to keep growing.

Who Are They For?

- Teachers wanting to refresh or specialise
- Professionals aiming for promotion
- Career changers building new foundations
- Anyone interested in learning and upskilling

Small Steps. Big Impact.

- Micro-qualifications prove that you don't need a big course for big learning. Start stacking skills, building confidence, and shaping the future you want—one micro win at a time.

Upskilling through Skills to Advance and LMETB courses is a practical way to enhance your employability and adapt to changing job markets.
