The 55+ Start Your Own Business Pathway

Building on Experience. Starting Something New with Confidence.

Have you ever thought about working for yourself, turning a skill into an income, or exploring a business idea you've never had time to pursue?

The 55+ Start Your Own Business Pathway is designed specifically for people aged 55 and over who are considering self-employment or starting a business. Whether you're approaching retirement, returning to work, exploring a new direction, or simply ready for a fresh challenge, this programme will help you explore the next steps with confidence.

🇮🇪 Applications are now open for ACORNS 12!

If you're a woman living in rural Ireland with a new business or a strong business idea, this is an opportunity worth exploring.

The ACORNS programme has spent over a decade supporting female entrepreneurs to start, grow and scale successful businesses through peer learning and the guidance of experienced business leaders. To date, the programme has supported more than 600 rural entrepreneurs, helping participants build confidence, increase turnover, create jobs and expand into new markets.

With up to 50 places available, the six-month programme is funded by the Department of Agriculture, Food and the Marine. Thanks to this funding, there will be no charge for those selected to participate in ACORNS and their accommodation costs, associated with any residential elements of the initiative, will be covered.

If you know someone who could benefit from this opportunity, please share this post and encourage them to apply before Friday 18th September.

For further information, visit www.acorns.ie.

SOLAS is delighted to launch a new digital tool for current craft apprentices and employers. It allows users to view the estimated duration of their on-the job phase quickly and easily with the aim of providing an indication of when off-the-job training may occur.

Available on both mobile phones and desktop computers, the tool provides an estimated phase duration in weeks and is intended to help apprentices and employers to plan for off-the-job phases 2, 4 and 6 for their chosen trade.

By making this information easier to access, the tool will support better communication and reduce uncertainty for everyone involved. We hope you find it helpful!

The tool can be accessed by clicking on the link below:
